Re: Notice of File Closure for Small Mining Activities, Grey Slate, S/027/022, Millard County, Utah

Dear Mr. Thomas:

We have received a copy of the BLM's September 15, 1995 letter to you, regarding your Grey Slate mining operation located in Millard County. BLM field inspections indicate surface disturbance related to your shale mine has been satisfactory reclaimed. The BLM subsequently closed our their case file for this project. Because this project is located on BLM managed lands, we will accept the BLM's recommendation and also close our file. This letter effectively releases you from any further reclamation responsibility at this site. If you plan to conduct any new mining activities in this area you will need to submit the appropriate mining notice of intention prior to commencing any such activities.

If you have any questions or concerns regarding this action, please notify us within 15 days from receipt of this letter. Thank you for your time and consideration in completing the required reclamation on this project.

Sincerely,

Tom Munson
Reclamation Hydrologist
